The History of Our Camp

For over 50 years, the Butler Mitchell Alumni Association has been providing inner-city kids with the opportunity to interact with role models who can have a positive impact on the quality of their lives. During the 1970's, Nick Bonifacio and Joe "Bye" Biondolillo felt a camping experience would have the most lasting effect on the original group of campers. Many of the past campers have grown up to become very Successful Professionals and Community Leaders. These folks now make up our Association, and credit this unique tradition for their success and also built some lifelong friendships!

For one of these kids, Chris DelPrince, it was a dream to bring back the camp experience that had such a profound effect on him. He credits the camp program with helping him enjoy great success as an adult, rising up from a single parent home on public assistance. This experience gave him the opportunity to enjoy an atmosphere that was far different from the negative influences of the asphalt city streets – that there is a different world out there. The camp helped build his self esteem in an positive environment that levels the playing field for all who attend!

In 2000, the new City Kids @ Summer Camp was born. Today we have recreated the same unique program. Judges, Police Officers and other community professionals take a week off from work to chaperone 100 Inner City Kids (50 boys, 50 girls) for a true "Life Changing" camping experience. These professionals have all been touched by the kid's spirit and see the real impact of this program, vowing to come back every year!

Now is your chance to Help Us....Help kids!
